Point of Compliance Exceedances

Dear Steve:

In your letter of August 20, 1997 you requested concurrence from the State that the Source Evaluation Plan dated July 17, 1997, currently being revised, be modified to encompass an evaluation of more recent Point of Compliance exceedances. You have also requested that the combined plans be submitted by September 15, 1997.

We accept these requests and agree with the suggested due date. However, our acceptance considers that actions currently underway to accelerate the evaluation will continue as discussed on August 18, 1997.

If you have any questions, please contact me at 692-3013.

Sincerely,

Steve Tarlton
RFCA Project Coordinator

Golden, Colorado 80401

Dear Mr. Slaten:

This is in response to your August 20, 1997, letter in which you requested approval of your proposal to modify the Source Evaluation Plan dated July 17, 1997, to include the more recent surface water exceedances for Plutonium. You proposed that the combined evaluation plan be submitted by September 15, 1997.

Given the fact that DOE and its contractors have already started a characterization effort to determine the cause of the elevated Plutonium levels, EPA approves your proposal to submit the revised evaluation plan on or before September 15, 1997.

Please contact me at (303) 312-6293 if you have any questions on this matter.

Sincerely,

Timothy R. Rehder, Manager
Rocky Flats Project
